DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10, are drawn to “a fuse holder”, classified in class 337, subclasses 211, 213.
 - II. Claims 11-19, are drawn to “a fuse system”, classified in class 361, subclasses 642, 646.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of group II and of group I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination (a fuse system) as claimed does not require the particulars of the subcombination (a fuse holder) as claimed because said fuse system may utilize fuse holders of different design. The subcombination has separate utility such as “fuse holder” and may be utilized in other types of fuse systems.

Art Unit: 2835

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
